

Stroke of mid-night between 14th and 15th August, 1947: When the world slept: India became a Free Nation
Greetings on 60 years of Indian Independence

DICOM PRO 2026

- Interfacing
- Image management system

For Healthcare Paradigm (Medical Informatics)

Multi modality DICOM viewer for Digital X-Ray, CT Scan, MRI Scan, PET, SPECT & Ultra Sound

ATTRACTIVE PRICES AND SCALABLE SOLUTIONS
Special Independence Day Discounts up to 31.08.2007

For private circulation only **DICOM PRO Bulletin**
Vol-1 Issue-1 **14th August, 2007**

Incorporate DICOM PRO 2026

DICOM PRO is a global IT standard, used with a current structure, designed to ensure the interoperability of systems to work together to produce, manage and distribute your images for a scalable Imaging Centre.

DICOM PRO in conjunction with right LIMS may build an enterprise level work flow oriented solution for any small to large scale health care establishment.

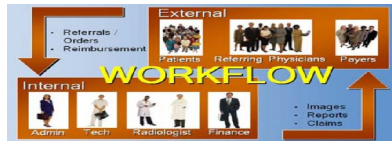

DICOM PRO 2026 Healthcare paradigm

- HL7 Reference Information Model
- Develop information linkages between the DICOM machines and HL7 standards.
- DICOM PRO is also an integral part of Integrating the Healthcare Enterprise which is an initiative to help users develop approaches for integrating various medical imaging and information systems.
- Web Access enabled DICOM objects

DICOM PRO 2026 for ■ Hospitals ■ Imaging Centres ■ Clinics

DICOM PRO 2026 delivers:

- DICOM conformance
- Assurance to link work flow of EHR systems

DICOM PRO 2026 handles:

- Production,
 - Storage,
 - Display,
 - Process,
 - Sending,
 - Retrieving,
 - Querying
 - Printing
- medical images and derived structured documents as well as to manage related work flow

DICOM PRO is an incredibly fast to deploy and easy to maintain application front end. It acts as LMIS or PROHOSYS plug-in application.

It is built to empower health care establishment to manage entire imaging requirements for such centres which are scalable too.
